S3033-NS

Features

- Cast iron / stainless steel construction
- Continuous duty rated
- Energy efficient permanent split capacitor (PSC) motor
- Water cooled motor (no cooling oil)
- Stainless steel fasteners
- 10' Pump cord

Energy Savings

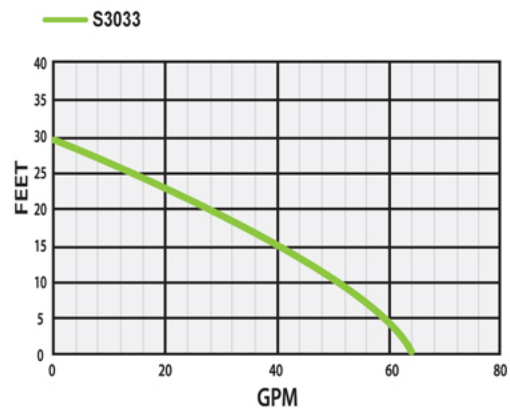

Saves an average \$55 per year*

Specifications

	S3033-NS
Motor HP	1/3 HP
GPM @ 10 ft	50
GPH @ 10 ft	3000
Max head	30' / 9.1 m
Discharge	1.5" / 3.8 cm
Amps @ 10'	4.0
Weight	20 lbs / 9.1 kg
Width	7.9" / 20.1 cm
Depth	5.3" / 13.5 cm
Height	13.0" / 33.0 cm

Flow Chart

* 3 year warranty available when purchased and installed by a contractor, otherwise the original 18 month warranty is applicable

Switch and Controller

DFC2 - Deluxe Dual Float and Controller

Includes: Dual float switch, manual, stainless steel hose clamp

Controller Features

- Monitors pump and power conditions and sounds an alarm when problems are detected:
 - AC power has failed
 - Pump or float problem is detected
 - 9v battery is low or slide switch is off
- Visual notification and recommended maintenance remedy
- Activates pump weekly to exercise and extend pump life
- Remote terminals to connect to auto dialer or home security system
- Adjustable run time from 5-45 seconds after the water level falls
- Universal controller mounting tabs
- Piggy-back plug
- 4' power cord

Dual Switch Features

- Two micro reed activated floats for added reliability
- Protective cage prevents debris from interfering with floats
- Float switch can be unplugged from controller for easy installation
- Solid top keeps out sand and dirt
- Vented, curved bottom prevents debris build-up under the float
- Mounts to discharge pipe with included hardware
- Activation level is adjustable
- 10' float switch cord

Connected Pumps and the Remote Terminal

PHCC Pro Series Pumps has always focused on the monitoring and communicating to homeowners of any issue or recommended maintenance their sump pump may need. As smart homes and connected devices become more common, many of the models within the PHCC Pro Series line already have a built-in gateway to allow you to connect the pump to different remote notification possibilities. You'll find options and recommendations on compatible devices at our website: www.StopFlooding.com/connected

Our Remote Terminal acts as a gateway to allow for many different connection options, as well as compatibility with future technologies.

Option #1

Connect to a monitored security or home automation system

Option #2

Connect to an auto dialer for cellular service or land line phone

Remote Capabilities

- The remote terminal allows the unit to connect to one of many external devices
- Allows for flexibility not found in other brands
- As technology changes the remote terminal will still be compatible with new devices

Monitored Security System

Auto Dialer

Home Automation System

Landline or Cellular Service

- Connects from pump controller to security or home automation system for sending alerts
- Simple installation requires only a pair of wires to be installed from pump to security system

- Easy to connect
- Works during power outage
